

1 WHAT IS CLAIMED IS:

2  
3 1. A multi-layered signage apparatus wherein the material displayed may be  
4 quickly changed, comprising:

5 a frame,

6 one or more opaque sheets each containing a graphic image, said sheets  
7 removably carried by said frame, and

8 a cover sheet adapted to be carried by said frame on top of said opaque sheet  
9 or sheets, said cover sheet having a first region wherein alphanumeric information is  
10 displayed and a second region which is transparent,

11 whereby the material displayed by said sign is readily changeable by either  
12 inserting a different cover sheet or by inserting a different opaque sheet having a different  
13 graphic image behind said cover sheet.

14  
15 2. The apparatus of claim 1 wherein said first region of said cover sheet is  
16 transparent except for said alphanumeric information.

17  
18 3. The apparatus of claim 1 further comprising a non-glare plastic lens carried by  
19 said frame on top of said cover sheet.

20  
21 4. The apparatus of claim 1 wherein said graphic image is placed on said opaque  
22 sheet in a region that will not interfere with said alphanumeric information on said cover sheet.

1           5.     A multi-layered signage apparatus wherein the material displayed may be  
2 quickly changed, comprising:

3                 a frame,

4                 a plurality of opaque sheets each containing a different graphic image, said  
5 sheets forming a stack of sheets, and said stack of sheets removably carried by said frame,  
6 and

7                 a transparent cover sheet carried by said frame on top of said stack of opaque  
8 sheet or sheets, said cover sheet having a first region wherein alphanumeric information is  
9 displayed and a transparent second region,

10                said graphic image on each of said opaque sheets being placed on said opaque  
11 sheets so that said image does not interfere with said alphanumeric information on said cover  
12 sheet, and

13                whereby the material displayed by said sign is readily changeable by either  
14 inserting a different cover sheet or by inserting a different opaque sheet having a different  
15 graphic image behind said cover sheet.

16  
17           6.     The apparatus of claim 5 wherein said first region of said cover sheet is  
18 transparent except for said alphanumeric information.

19  
20           7.     The apparatus of claim 5 further comprising a non-glare plastic lens carried by  
21 said frame on top of said cover sheet.
